

IAIRS

ISBN: 978-93-82359-58-6

**International Conference in Information Technology, Electronics
and Communications (ICITEC – 2013, Hyderabad, India)**

&

**International Conference on Electrical Engineering (ICEE – 2013,
Hyderabad, India)**

Sr.No	Topic	Page #
Plenary and Keynote Address		
1	Plenary Lecture - I: Research Possibilities with Mobile Learning – Dr Kumar Laxman	I
	Plenary Lecture - II: Class clean ultra purification, processing technologies for fabrication of GaAs crystalline wafers and devices for microelectronics – A bird's eye view – Dr. V.N. Mani	II
2	Keynote Lecture: Multiphase Technology (Higher than Three-Phase) Induction Drives- Technology – Dr.P.Sanjeevikumar	II
3	IAIR Ongoing Research Project: Real time Monitoring of Remote Area Cardiac Patients	III
Information Technology		
1	DbHTML – An approach to develop Database enabled HTML websites	1
2	Web Usage Mining using Association Rule Mining on OLAP Cube For Analyzing Web Log File	6
3	Layered Approach for Intrusion Detection Using HMM and Weka Tool	11
4	Hierarchical Bayesian network with Gaussian distribution for change detection	20
5	Remote system wakeup and control using RDP, VNC and magic Packet	25

6	Evolution of Barcode	30
---	----------------------	----

Electronics

7	Lossless and reversible medical image encryption using runlength compression algorithm	39
8	An Implementation of Process to Remove Scratches from QR Code with Mobile Phone	42
9	Smart Web Based Industrial Temperature Monitoring System Using ARM 9 processor and Embedded Linux	47
10	A Practical Approach Towards Automatic Irrigation	52

Signal Processing, Communications and Electrical Engineering

11	Impact of Design Factors on Application Specific High Security Wireless Sensor Network	57
12	New 0.86 rate Quasi-Cyclic LDPC code for radio application	64
13	Microstrip patch antenna arrays for wireless communication	69
14	Impact of NBTI on SRAM cell	76
15	By using Internet Build automation system embedded system monitoring for control Build automation system	81
16	Application of Neutral Reactor in Shunt Compensated EHV Circuits - A Case Study	88
17	Comparison and THD analysis of different level shifting techniques of a 13 level cascaded H-bridge multilevel inverter	94
18	Intelligent techniques for fault detection	104
19	Interactive content based image retrieval : An Introduction and Review	108
20	Semicustom ASIC Design of Low Power and Area efficient Carry Select Parallel Adder used for Secure Integrated Circuits	114
21	Algorithm for Locating Fault on Series Compensated Line	122
