ICEE - 2013

International Conference on Electrical Engineering

July 6- 7, 2013, Hyderabad, India

Sr.No	Topic	Page #
Keynote Address		
1	Keynote Lecture - I: Ring Lasers and All-Optical Devices – Dr. Syed Azeemuddin	I
3	IAIRS Ongoing Research Project: Real time Monitoring of Remote Area Cardiac Patients	II
Electrical Engineering		
1	A Novel Vector Control Technique for Doubly Fed Induction Generator V.V.S.M.R.Raju.Pragallapati, S.L.V.Ayya Rao.Tummala	1
2	Mathematical Modeling and simulation of Solar Photo voltaic cell. Reshma Gopi.R	6
3	Design and performance of a Bidirectional isolated DC-DC converter for Renewable Power System Dr. K Ravi Chandrudu, G.V.P. Anjaneyulu, P.Yohan Babu	12
4	Novel Hybrid Multilevel Inverter for Standalone System Athira Raju, S. Arun	19
5	Study and Implementation of APC solution for Fractionator Process Control using DeltaV Sharvari V. Malwade, Dilip K. Maghade	26
6	Study and Implementation of Distillation Control using Model Predictive Control of DeltaV Miss. Meera Dinanath Sungare, Prof. Jitendra A. Gaikwad	32
7	PI Controller Optimal Tuning using Particle Swarm Optimization	38

	Algorithm for Speed Control of DC Motor Drive Nikitha Gomez, Sreekumar T	
8	Adaptive control strategy for microgrid Viji joseph, prof. P C Thomas	44
9	Direct Torque Control of Induction Motor Using PI Controller Shelby Mathew,P.G.Scholar, Bobin.k.Mathew,Assistant professor	50
10	Novel DSTATCOM Topology for Size Reduction and Load Compensation in Distribution System Alan C. Varghese, Sreekala. P, Dinto Mathew	56
11	Induction Motor Fault Diagnosis Methods: A Comparative Study Greety Jose, Victor Jose	63
12	Fuel Cell Modelling for Distribution Generation System Ananthu Vijayakumar, Vidya M Nair	70
13	Stand-alone Inverter using Adaptive Total Sliding Mode Control for Photovoltaic Generation System Ashna Mohan, Dinto Mathew	76
14	Analysis of the Impact of Electric Vehicle in Grid Connected Wind Farm Deepa James, Rani Chacko	84
15	Hybrid multilevel inverter based on switched capacitor and diode clamped units Gayathri Devi KS, Arun S, Sreeja C	90
16	Real and Reactive Power Flow Control using UPFC with Three Level Neutral Point Clamped Converter Vinod P. Kurian, Reshmi V	97
17	Optimal DG Placement Considering Voltage Stability Enhancement and Reduction of Real Power Losses Neenu Rose Antony, Sarin Baby	103
18	THD reduction in a single phase grid connected PV system Rangy Sunny, Robins Anto	108
19	Modeling and Simulation of Fuel Cell Powered Brushless DC Motor Drive Vandhana J, Sreekumar T, Anish Benny	114
20	Resonant Immittance Converter topologies for constant voltage supply Amit Gupta, S.K. Singh, A.G. Rao, Ankit Gupta, Vimal Chandra Gupta	119
21	Power quality improvement in Renewable energy sources Johnson Abraham Mundackal, Sreekala P.	126
