ICITEC - 2013

**International Conference on Information
Technology, Electronics and
Communications**

July 6 – 7, 2013, Hyderabad, India

Sr.No	Topic	Page #
Plenary and Keynote Address		
1	Keynote Lecture - I: Ring Lasers and All-Optical Devices – Dr. Syed Azeemuddin	I
2	Keynote Lecture – II: Leading Economy of Gulf, Challenges of Information Technology Adoption, and Frame work of SCM - Dr. Habib Ullah Khan	II
3	IAIRS Ongoing Research Project: Real time Monitoring of Remote Area Cardiac Patients	III
Signal Processing and Communications		
1	Feasibility of Power Line communication Testing and Network Development for Intelligent Home Energy Management System based on LonWorks Power Line Communication Technology Rajendra Prasad P, K Srinivas, Chenthamarai Selvam, Pratap Kumar S	1
2	A Hybrid Indoor Localization System Sana, Shruti Jaiswal, Saurabh Kumar Dixit	7

3	Performance Analysis of Subcarrier Multiplexing Technique Over Nonlinear Dispersive Fiber With EDAF Essa Ibrahim Essa, Khalil I. A. AL-Saif, Saadi Hamad Thalij	11
4	TDMA Based Energy Efficient Quality of Service Routing Protocol D. Annapurna, K. Venkateswara Rao, K.B. Raja, Venugopal K R, L M Patnaik	16
5	Performance Analysis of Cellular Networks with Handoff Strategy Ms.Snehal P.Jawanjal	24
6	Signal Processing for Wearable Heart-rate Monitoring Shraddha Deopujari, Ashok Gaikwad	28

Electronics

7	Advanced Test Pattern Generation using Low Power Linear Feedback Shift Register J. Praneet Raj, V. Shiva Ram, G. Ashish Reddy	32
8	Crosstalk Analysis in capacitive coupled Carbon Nanotube Bundle Interconnects Anuj Kumar Sharma, Mayank Kumar Rai	37
9	A delay measurement technique for custom processor with the aid of configurable signature registers for small-delay defect detection using VHDL Krishna Chaitanya Pidugu, Prasanth Varasala, , G.S.Sivakumar T.Subhasri	41
10	Implementation of kers through type-c chopper and FES Samaksh Kapoor, Gagandeep Singh Oberoi,, Anshul Thakur and Garvit Dwivedi	46
11	Plastic Electronics and Paper like Display System Samaksh Kapoor, , Shubham Saini, and Garvit Dwivedi	53
12	Restartable bist controller for fault detection in CLBs OF FPGA Pandurangaiah Kooli, T.Sanath Kumar	60
13	Analysis of Second & Forth Order Sigma Delta Analog to Digital Converter Premprakash Semkar, Preeti Trivedi, Amit Naik	64
14	FPGA implementation of high speed IEEE 754 compliant floating point multiplication Ramesh Yallala, T.Venkata Sridhar	68
15	Design of modified da concept on fpga for FIR filter Dr. L. Rangaiah, D. Sreekanth reddy	72
16	Piecewise Linearization of Thermistor in Real Time FPGA Durlav Sonowal, Manabendra Bhuyan	77

Information Technology

17	Ontology Based DIDS system for Distributed Port Scanning Attacks	82
----	------------------------------------------------------------------	----

18	Rahul P Savane, Prof. Siddharth K Gaikwad DBSCAN Clustering Algorithm in Spam Identifying in Weka Neha R. Gameti, Jigisha D. Rathod.	88
19	An Energy Efficient Inter-Cluster and Multi-Hop Routing Protocol for Wireless Sensor Networks K. Nageswara rao, Vrinda gupta	94
20	Analysis of non-linearities of a Darlington pair Amplifier Purushottam Singh Premi, Harish Parthasarthy	99
21	Performance Analysis of Different Haze Removal Algorithms V.Venubabu, M.V. Raghunadh	106
